Evan Marc
featuring Steve Hillage
Dreamtime Submersibles

Diving deep with hypnotic rhythms, sub-aquatic bass pulsations and reverberant melodies, Evan Marc explores varying states of non-waking life on this full-length outing. His sensitive approach to sound design is woven perfectly with atmospheric guitar tones supplied by **System 7's** Steve Hillage, crafting a unique and cinematic take on the dub techno paradigm. Released as a limited-edition continuous mix on **Somnia**, Thoughtless is proud to present this stunning album for listeners and DJs alike.
