## TLM030 Limaçon Labels

Limaçon drops a hint of things to come with this lead-off single from his upcoming debut full-length. In signature fashion, he deftly blends his deep low-end with tightly syncopated rhythms, melting synth lines and a compelling narrative arc that maintains full attention throughout. Unfolding the original, his Dub Bump strips down to the core groove and runs it through an aquatic echo chamber for a deadly mix that proves labels are meant to be broken. Perhaps Limaçon's strongest work to date, it's a sure sign to be on the lookout for his album, 'Tarry Not' - due for release on Thoughtless January 9, 2010...
